LOCAL GRAIN AND PRODUCE.

At New York yesterday money on call | Fine Weather and Better Roads Im-

prove Trade-Prices Very Firm. On the wholesale streets there was a good deal of activity yesterday in filling orders brought in on Saturday by traveling salesmen, mail orders and those of buyers who dropped in. The dry goods houses, the grocers, iron and hardware houses and druggists had a very busy day. In prices there were no important changes. Sugars are active and coffees are stronger in tone. Navy beans are weak. There is a marked strengthening in the canned goods market. Now that they have begun to move, an active trade is looked for. There is a steady demand for dried fruits. In fruits and vegetables there is a fair movement, with prices firm. Onions are higher, as are really choice apples. Green stuff is begincept by the sympathetic influence of the butter, as usual with milder weather and the increasing receipts, but all are in good request at prices quoted.

The grain market is slow, as receipts are very Louis & Western stocks, St. Louis & San | bright, but prices on all cereals, especially corn, Francisco seconds, Cleveland, Lorain & retary of the Board of Trade, yesterday ruled reight, 75½c; No. 3 red, 71½@73½c; wagon wheat,

DUMPED MILLIONS OF BUSHELS ON AN EAGER MARKET.

Price Broke but Little-Wheat and Oats Lower in Sympathy-Provisions Swamped by Hog Receipts.

CHICAGO, Feb. 18 .- The corn pit furnished a spectacle of excited activity today. The May option, after an advance early, broke under liquidation of enormous lots by longs and closed %6%c lower. Other markets were affected sympathetically, wheat closing %@1/2c, oats 1/4c and provisions 74@124c depressed.

Corn held undisputed sway on the Board of Trade throughout the entire session. The volume of business was heavy the first two hours. It was enormous the remainder of the day. The pit was crowded by the addition of traders attracted from other arenas by the activity of the coarse grain. The market for May opened 1/6c higher at 414@41%c. There was nothing striking either in the crop situation or the statistical reports, but shorts were clamorous in their demands. Several million bushels changed hands at the opening figures, and after touching 41%@41%c, the market was suddenly bid up to 41%c. Scarcely any corn changed hands in this bulge. Suddenly the market began to crumble. Where a few minutes before scarcely any corn was to be had millions of bushels were for sale. Country offerings were reported much freer. Prominent bull leaders unloaded million after million. One speculator was credited with getting rid of 5,000,000 bushels and others were not far behind. It all seemed to be wanted, however, mostly by shorts. May declined to 401/4@40%c and closed at 40%c, %@%c under Saturday. Receipts were 413 cars, two of contract grade. Wheat yielded the paim to corn without a protest, and followed the larger mar-

ket with great agility. Transactions were between local interests. May opened unchanged to \%@\chicket higher at 75\%c to 75\%@ 75%c, influenced chiefly by the opening corn strength, although steady cables and moderate Northwest receipts were contributory factors. Some commission house buying, coupled with covering by nervous shorts, caused an early advance to 75%c. The corn break later caused a reaction to 75c, and the close was easy, May %@%c lower at 75@75%c. The decrease in the visible, 812,000 bu, was as expected. The amount of wheat and flour on ocean passage is now the largest ever known at the season by 2,500,000 bu. Exporters reported twenty-five loads taken for foreign shipment and seaboard clearances wheat and flour were equal to 467,000 bu. Primary receipts aggregated 661,000 bu, compared with 914,000 last year. Minneapolis and Duluth reported 495 cars, against 626 last week, and 723 a year ago. Local receipts were 53 cars, none of which graded

An active trade was done in oats and as was the case in the corn market, there was heavy covering by shorts. The mar-ket followed the corn lead. May sold between 25%c and 25%c and closed 4c lower at 251/2c.
Provisions were not able to withstand the local receipts of hogs, which were 14,000 head in excess of the number estimated on Saturday, and the swift change in the previously bullish condition of the corn market. Transactions were not important. between \$7.471/2 and \$7.421/2, closing 71/2c down at \$7.421/2, and May ribs between \$7.071/2 and

\$7.021/4 with the close 71/2c depressed at Estimated receipts to-morrow-Wheat 65 cars; corn, 500 cars; oats, 525 cars; hogs, 35,000 hogs.

HE STOLE WATER.

Superintendent of a Chicago Packing Company to Be Punished.

CHICAGO, Feb. 18 .- Harry Boore, superintendent of the Continental Packing and Provision Company, was found guilty, today, of stealing 187,000 gallons of water from the city mains in the stockyards, for the use of the packing company which he represents. The value of the water was fixed at \$14.96, and Boore, therefore, will be given a sentence for petit larceny, the punishment for which is a fine not to exceed \$1,000 and imprisonment not to exceed one year. Boore's trial and conviction was the first resulting from a re-cent examination of the city water mains in the stockyards district, in which it was discovered that the mains had been illicitly tapped in many places, and millions of gallons of water stolen.

Condition of Other Markets.

UNION STOCKYARDS, INDIANAPO-1.18, Feb. 18.-Cattle-Receipts small; shipments none. There were not very many fresh arrivals of cattle and the market was necessarily quiet, but sales did not show a great deal of change compared with the way equal kinds sold at the close of last week. Reports from other places this morning were by no means encouraging, and of course there was naturally a weaker feeling here in harmony with this. It quite often happens, however, that liberal receipts at the beginning of the week are followed by lessened supplies later, and this may have a tendency to hold values on a basis of those current last week. Dealers, however, intimated that there is nothing to indicate a better market than

last week. There was not a large supply of hogs today, but in keeping with reports from other places the bidding from the start was lower, and with an absence of shipping orders salesmen were in no position to dictate prices. Packers, however, were reasonable in their terms and finally took all of the supply at about 5c lower prices than equal kinds sold Saturday. Sales ranged from \$5.35@5.42½, and about the same proportion sold at \$5.40 to-day as at \$5.45 Saturday.
